

## Final Exams Update

**Immediate Release: June 7, 2021** - Grande Yellowhead Public School Division takes a growth-centred approach to final exams and final grades. GYPSD teachers are highly qualified professionals who take into consideration each student's situation, and the context of the current school year. Final exams continue to be an opportunity for students to show their overall growth in subject areas.

For this June only, final exam results will not be used if they negatively impact a student's final grade. The usual weightings of final exams will resume in the 2021/2022 school year.
